Task Tree

Priority: 1 (Medium) Role: 0 (Guest) % Complete: 0 Time Est.: 0 Time Spent: 0 Start Date: 27/10/2015 Due Date: 27/11/2015

Completed: 14/08/2015 Recurrence: Once Allocated To: Select a name Allocated By: Select a name Status: Select a status Category: Select a category Tags: Select a tag

External ID: 0 Cost: 0 Dependency: 0 Region: Specify a version File Link: .\Introduction.td

104 / 38 / 38 tasks / 1 task selected / 1.7 / Est: 0.00 H / Spent: 0.00 H / Cost: 0.00 / Task: Task Tree

The File Link field can be used for linking to:

1. Local files or folders
2. Network files or folders
3. Internet addresses (www.)
4. Email addresses (mailto:)
5. Microsoft Outlook folders
6. Other tasks (td:)

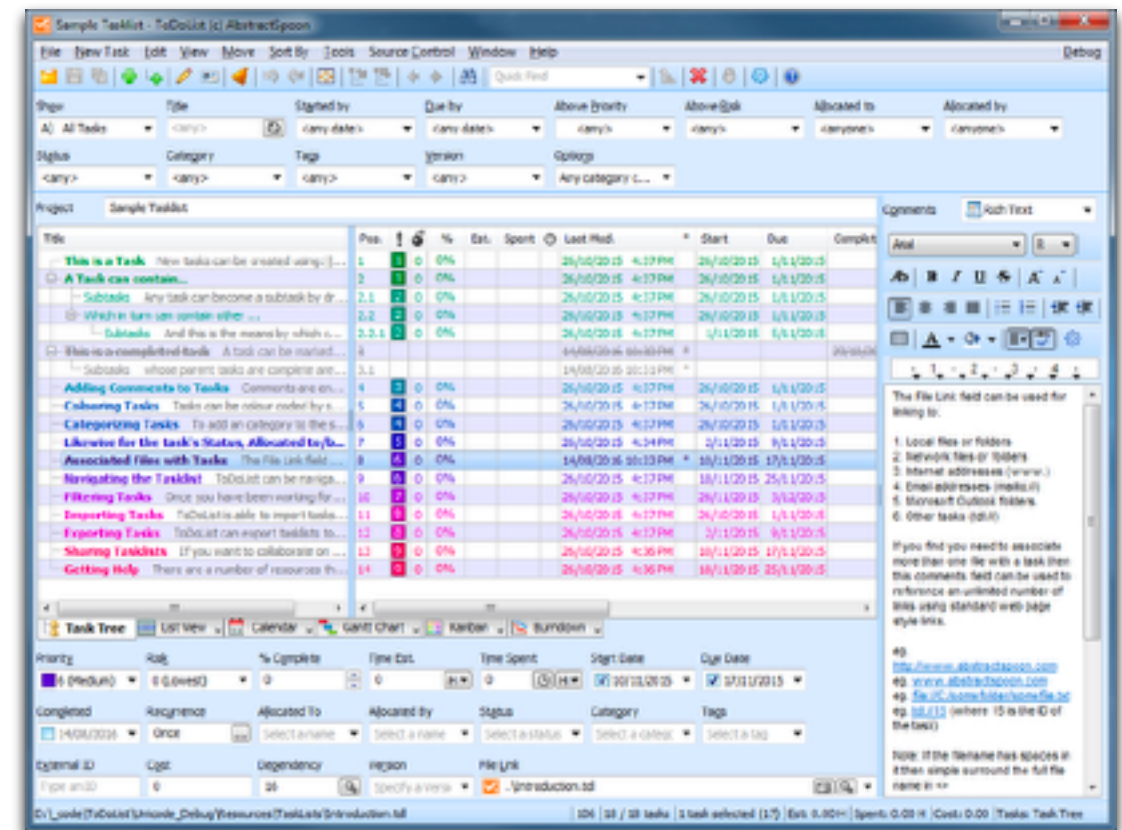

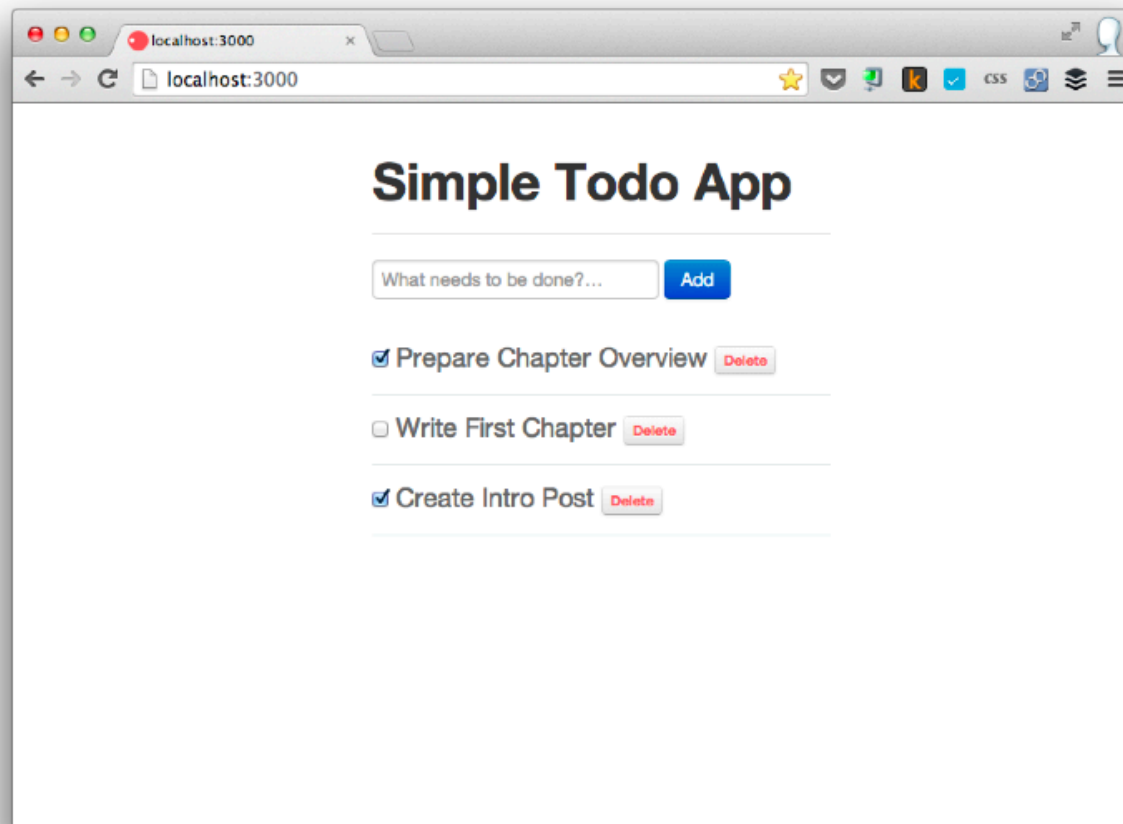

If you find you need to associate more than one file with a task then this comments field can be used to reference an unlimited number of files using standard web page style links.

eg. <http://www.abstractspoon.com>
 eg. www.abstractspoon.com
 eg. sa@abstractspoon.com
 eg. [td:15](#) (where 15 is the ID of the task)

Note: If the filename has spaces in it then simply surround the full file name in ""

Imagine a todo app...

That's just a bunch of components 😅
