📦 name of package(s)

📋 additional resource or list or whatever

Build components and render data

```typescript
@Component({
  selector: 'todo-item',
  template: `<li>{{ todo }}</li>`,
})
export class TodoItemComponent {
    todo: string = 'learn angular';
}
```

```html
<template>
   <li>{{ todo }}</li>
</template>

<script>
export default {
   data: function () {
      return {
         todo: 'learn vue'
      }
   }
}
</script>
```
